A Vision For Precise Navigation

Ultrasound Guidance

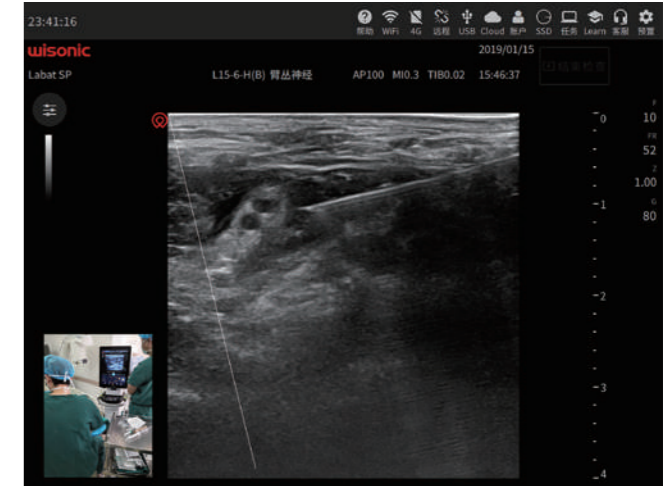

wisonic

Precise Navigation

Navi was inspired to assist doctors in their daily challenging cases.

wiLearn - Education Center

wiShow - Synchronization Video Recording

wiGuide - Magnetic Needle Navigation

wiNeedle - Intelligent Needle Enhancement

Professional Application

Focusing on every detail of machine design, our experts have endeavoured to make Navi the simplest to use ultrasound on the market. Navi is designed to be indispensable as previously difficult tasks become routine with sight. “Seeing is believing” and with the Navi there will be no more stabbing in the dark.

A 19-inch Touch Screen

B 7 Hours Battery for Scanning

C Electric Height Adjustment

D Dedicated Probe Holder for Disinfection

E Probe Button

Comprehensive Range of Applications

The wide range of transducers available means you will never be limited to applications, from large patients to the smallest of paediatrics - the Navi can do it all.

The innovative mid-line design along with the project probe direction indicator provides outstanding accuracy and best user experience.

Hockey Stick Probe

A dedicated probe for distal extremity use, with very high frequency and light weight design, it is a perfect tool for excellent detail imaging and limited space operation.

Cardiac

Thyroid Cystadenoma

Vertebral Arteriovenous

Yolk Sac

Liver Artery

Kidney

Carotid Artery

Musculocutaneous Nerve
